

Take action IN MADAGASCAR, ONLY Together 40% OF CHILDREN ATTEND SCHOOL

ACTING LOCALLY

We want to support the educational problems in the countryside of Madagascar. Our aim is to introduce students to the sciences taught at ENSEEIHT, by offering them fun activities based around robotics, computing and physics. We also want to awaken their curiosity in both science and literature, particularly through reading sessions. In addition, we want to tackle prevention issues linked to family planning, such as sexual rights, contraception and family structures. Going there seems to us to be the best way of doing this.

ECOLE DU MONDE

Écoles du Monde is an association chaired by producer Charles Gassot, which aims to improve living conditions in rural Madagascar.

We want to join their school in Besely to help them.

OUR ACTIONS

- Fun and educational activities (making a robot)
- Assistance within the school
- Menstrual education
- Distribution of clothes/books
- Production of a vlog

MESURE THE IMPACT

We aim to have a positive ecological impact. To achieve this, we plan to approach companies to collect equipment such as computers or educational robots. These items, donated by companies that no longer use them, will be given a second life, allowing still-functional objects to be reused.

OUR CONTRIBUTIONS

Over the course of our mission, we'll be sharing our typical days at the school on our Instagram account. We will also highlight those who have supported us in preparing this trip.

We are also committed to producing a blog in video format to retrace our project and show what it means to live in Madagascar today.

Meeting with Ecoles du Monde

Meeting with Planning Familial

Collection of materials (school supplies, computers, etc.)

Human7 budget and administrative training

Financial fundraising (FONJEP, etc.)

Organization of activities and lessons

Humanitarian trip to Madagascar

STRENGTHS

- Organization of the project through the association Ecole du Monde.
- Support from the association and students who have already left last year.

WEAKNESS

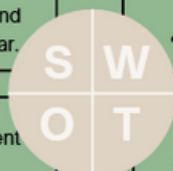

- There are 6 humanitarian projects this year, the opportunity to bring in money through cake sales is more complicated.
- Lack of experience.

OPPORTUNITIES

- Grants that provide funds to student projects : FSDIE, FONJEP, N7 DEV.
- Cam lessons allow us to move forward with our project.

THREATS

- Time constraint
- Uncertainty in financing.

OUR ROLES

Jules ROBIN - Team leader
 Amelie DURAND - Vice team leader
 Emma CAILLAUD - Secretary
 Gabriel KPODOH - Vice secretary
 Martin FAVRE - Treasurer
 Mathurin VIOT - Vice treasurer
 Diane MELIN - Communications manager
 Penélope HERZHAFT - Events manager
 Adèle LE LUEC - Events manager
 Soahne RENGASSAMY - Administrative manager
 Ninon IMBAULT - Administrative manager
